THE PENNSYLVANIA RAILROAD. One of

The Princettvanta Rattroad.—One of the most interesting railroad documents that have appeared, for a long time is the recently published "Report of the Inserting sting Committee of the Pennsylvania Radroad Company."

The total number of miles of railroad and canal directly controlled by the company is stated in the report to be 5,923,6-16 of which 5,525 5-16 are railroad and 408 canal. "The total smount of capital represented, including bonds, is stated at \$398, 267,675 23, and the net carpings in 1873 at \$25,475,299 66, being an average of 6.89 per cent. The amount carp d for the per cent. The amount carn d for the stockholders of the Pennsylvania Railroad in that year is estimated b the committee at 13 23-100 per cent, on the stock. The number of miles of railroad controlled by the company is, we may here remark, about 360 greater than the whole railroad hilleage of the State of New York, and about 200 miles greater than that of all New England. The capital stock of the company is stated at \$67.056,759, full paid, and \$,1, 087,725, part paid—in all \$68,144,475.

Light is a force, and science holds that it is made up of impulses. Nature has been shown to conform all kinds of dypamical effects to rythmical pulsing, or, wave like action and the impulses of light are held to be of the same kind. There are unough in the different colored lights. are unequal in the different colored lights. are unequal in the different colored lights, and the scale has been determined. In an inch of violet light, it is shown that there are no less than \$7,000 waves, a statement in which there is nothing evtraordinary or impessibe, as Nobert, the German opticism is in the habit of ruling his microscopic at test-glasses at rates all the way from 100, 000 to 200,000 per inch. But, when we are told that the ray enters the eye at the rate told that the ray enters the eye at the rate of 185,000 miles per a cond, and as each, inch contains 58,000 waves that when we are looking at a violet of ject there are 699,000,000,000 beats upon the retineeach second, the statement battles all imagination, we may accept, but cannot un-derstand it. Popular Science Monthly.

[Notice By Request.]

The way men put off imports not matters to the last moment is one of the curious things in nature. The fifth concert in aid of the Public Library of Kentucky was advertised to take place July 31st. The day after, August 1st. Gov. Bramlette, the mamager, at Louisville, received over \$50,000 for tickets. Had the drawing taken place at that time the Governor would have had to send this momey back, but as the Concert was postponed to November 30th, it was all right with them. We presume that on the first day of D-cember next, the day after the Concert, thousands of dollars will be received, one day too late, for there will be no further postponement. This money might just as well have been sent a week before, as when it was."

The present the such as the bone sent a week before, as when it was."

the head to such an expect that the in roduction of Mishler's Herb Bitters was halled as a triumph in mealed effect than quinting it possesses none of the demortacy in its beneficial effects than quinting its possesses the appetite and facilitates digestion, thus render nor the system recovered from its effect on marked that the none is none of the demortacy in its beneficial effects than quinting its possesses the appetite and facilitates digestion, thus render nor the system recovered from its effect on the sense in fact, a judicious use of dishler's direct bitter to this senson of the year will prevent the recurrence of this disease, even in those who havenever passed an autumn withing it. An experi nee of twenty years proves it to be the greatest agriculture of this disease, even in those who havenever passed an autumn withing it. A Substitute for Outnine

A SUBSTITUTE for Quinine

For years, quinine was regarded as the only specific for malarious diseases and immense quantities of the drug were anapually command throughout our western country, more particularly along the river bottoms and adjoining low lands.

With the fall months malaria in all its varied forms, stalks like an epitiemic throughout the land, and we ole districts are prostrated with chilis and fever, the entire population shaking with ague. Heretofore, quining was regularly reserved to but well it is quently failed to effect a cure, it invariably der nged the stomich, producing names, vertige and fugitive pains in the head to such an extent that months lapsed on the system recovered from its off cts. These obligations.

the loins; experience s fr quest desire to pass water, pain during its passage and frequent stoppage in its few. These stemanife tations resulting from some strain or he vy lift (perhaps years ago) and aggravated by every change in the weather. Every slight cold file direct to this one weak apot, and unless promptly attended to the disease becomes chroute, and the once strong man a miserable wreck. Mishier's Herb Bittara is the only cartain remedy for this clease of diseases. It has a peculiar tendency to the kidneys, atimulates them to healthy action and removing the cause, prevents the formation of brick-dust deposits which, if permitted to continue, will by cohesion form gravel atone, necessitating a phoful operation for its removal. Meny of the ingredients entering into its composition, are universally recognized as specifies for all complaint. Drup pass, all disorders of the Bounds and affections of the Throat and Lungs, it is equally certain and efficacious; while as a remaily for the complete permitted to complaints of the complete permit of the grant remails for the complete permits of the Bounds and affections of the Throat and Lungs, it is equally certain and efficacious; while as a remaily for the complete permits of the second tendence of life, will find this GREAT TEMALE REMEDY provided and creations is replaced by a blooming, healthful counternairee, and its conscious use emables Nature to purform her functions REGULARLY AND WITHOUT INCONVENIENCE. Sold enly is hot less by all Druggists and general desirers.

Infinite riches in a little room."-MARLOWE. CHICAGOND TRACT

BRICE A BRAO SERIES ersonal Reminiscences of Parmous Posts and Rivelists, Wits and Humorists, Artists, Actors, Musicians, and the like.

RICHARD HENRY STODDARD.

Each 1 vol., square i had, cloth, \$1.50.

The volumes already issued have insured the Brice. Brac Beries a wide and permanent popularity. New volumes quite as interesting and valuable as these already published will be insued during the coming season. It is the aim to gather up in this collection, from the numerous biographies, autobiographies and memoirs that have already appeared, all the reminiscences worth preservation of the men and women who have done so much to make this century one of the most brilliant in the angular of have done so much to make this century one of the most brilliant in the angula of English Literature. Each volume will be complete in itself. A careful index will farmed a ready guide to the contents of the different volumes, in hich, under the capable editorship of Mr. R. H. Stoddard, it may safely be asserted there will be brought together a fund of choice and fresh anecdote and gossip, enough, not only to justify the general title of the series, but the time of Marlowe which has been selected as its motto. "Infinite riches

been selected as its motto, "Inflaite riches in a little room," RECENTLY PUBLISHED Personal Reminiscences by Chorley, Planche and Young. Anecdote Biographies of Thackeray and Dickens.
